Reviewing Progress

We will review the child's progress every half term to ensure that he/she is benefitting from the Flexi-School arrangement. If the child's progress is not at the level we are expecting for that child, we will meet with parents/carers to plan how the child can improve. If after an intervention the child's progress is not improving, we will then withdraw the Flexi-School arrangement and expect the child to attend school full time until they are back on track. We can return to Flexi-schooling in the future if all parties are in agreement that this will benefit the child's education.

I understand that if my child is not progressing as expected, I will need to meet with the school to discuss possible solutions. If, after trying agreed interventions my child's progress is still not improving, I understand that the Flexi-School arrangement may be withdrawn until they are back on track.

Safeguarding

I understand that if the school has any safeguarding concerns relating to my child, one of the Designated Safeguarding Leads will call me to discuss the concern and the context. The school reserve the right to suspend the Flexi School arrangement and insist that my child attends school full time until the concerns around safeguarding have been resolved.

Review of Flexi School Arrangement

All flexi school arrangements will be reviewed every half term. You will be required to meet with the school to discuss how well the arrangement is working, so that we can ensure both the school and yourself are providing the best possible education for your child. The school will reserve the right to suspend or withdraw the Flexi School arrangement at any time, if the child is not progressing as expected (see above).

I understand that I will need to attend regular review meetings about the Flexi-School arrangement, and that the school may suspend or withdraw the arrangement at any time for the benefit of the child's learning.
