Part A: Pupil premium strategy plan Statement of intent

The Pupil Premium will be used to provide additional educational support to improve the progress and to raise the standard of achievement for these students. The funding will be used to narrow and close the gap between the achievement of these students and their peers locally and nationally. As far as its powers allow, the School will use additional funding to address any underlying inequalities between children eligible for Pupil Premium and others. We will aim to ensure that the funding benefits the students who need it most so that it makes a significant impact on their education and lives.

We will seek to overcome:-

- Any educational inequality
- The limit of opportunity or wellbeing due to financial hardship
- The impact of low self-esteem on education and learning
- Any barriers which result in poor engagement with school

The Leadership Team, in consultation with the Governors and staff, where appropriate, will decide how the Pupil Premium is spent for the benefit of entitled students, as follows:

- School wide plans for Pupil Premium funding expenditure will consider research into best practice and evidence of successful intervention strategies.
- The School will assess what additional provision should be made for the individuals.
- The School will be accountable for how it has used the additional funding to support the achievement of those students covered by the Pupil Premium and the Headteacher (or their nominee) will report to the Governing Body and parents on how effective the intervention has been in achieving its aims.
- We will ensure that parents, Governors and others are fully aware of the attainment of students covered by the Premium.
- We will encourage all staff, both teaching and support staff, to suggest innovative and creative strategies to support the progress of these students.

We will monitor, evaluate and review the impact of the Pupil Premium funding.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Wellbeing and Safety – 83% of our Pupil Premium children are currently being supported because of safeguarding concerns.
2	Attendance – Our current pupil premium attendance is 89%, (compared to 94% for our non pupil premium cohort) and 55% of these children are persistent absentees.
3	Progress and attainment – our Pupil Premium cohort are consistently underperforming in progress and attainment.
4	Small rural town with limited transport links – rural poverty leads to isolation and lack of opportunity to engage with wider activities. This isolation also leads to a lack of understanding of the wider location and wider world, therefore limiting the children’s opportunities to build cultural capital and understanding of diversity.
